### **About the Libraries**

Denison Libraries are committed to connecting people with ideas, and to creating an intellectual and cultural commons where students, faculty, and staff can experience the power of sharing information. You will be joining a staff of 10 professional librarians and 11 support staff members. Along with library staff, the building is home to our Center for Learning and Teaching, the Writing Center, and the Multilingual Learning Office. Thanks to a generous donation from a Denison alum, the building went through significant renovations from 2018-2022, resulting in more spaces for students and other patrons to study, collaborate, and create. Throughout our 7 floors, the library has a variety of spaces that support quiet study as well as collaborative work. During a typical semester, we are open 110 hours a week. We ordinarily employ dozens of students each semester; students learn hands-on skills they can add to their professional portfolios. The library is there for our patrons virtually, as well. While we hold over half a million volumes in our building, we also have strong consortial partnerships that allow ready access to a network of 120 higher education members of OhioLINK, proffering 46 million resources. We offer access from wherever you are to over 700 databases and 26 million electronic articles, making our reach greater than that of many larger schools.
